Your Bromley at the Heart of the Town

This Saturday there will be free children's workshops where they can make their own mini sea turtle and learn how important it is to avoid single use plastic. Come along to see the fun Sea Turtle sculpture, made entirely from discarded plastic waste.

Inspired by the beauty of real sea turtles, many of which are now classified as endangered, with one of the key reasons being that they mistake floating plastic bags for jelly fish, which are a staple of their diet.

Please use attached link to book.
